

Trainer profile – Scott Rumsey

An enthusiastic student and practitioner of customer service his whole career, Scott has been working as a trainer and coach in this field since 1996. His foundation in customer service and then sales emanates from his time on the front line in retail banking with NatWest. Demonstrating a strong philosophy of putting the customer first, Scott was invited to lead a local project team, challenged with the task of reducing customer queues and waiting times. The recommendations from Scott's team were implemented, resulting in a 50% reduction in queuing and a marked increase in customer satisfaction. His team were rewarded with a Quality Service award at the national service conference.

This passion for helping customers evolved into various relationship management roles. Recognising an interest in helping others to improve their skills, Scott became a Sales and Service Coach at the newly established call centres set up within NatWest. He achieved his ultimate ambition within the bank when he joined the New Learning Organisation, who were responsible for delivering learning and development across the organisation.
